Henderson, NV 89011

Re.: Nevada Division of Environmental Protection Response to:
Technical Memorandum – Proposed Revisions to the Groundwater Monitoring Program
Dated December 15, 2006
NDEP Facility ID# H-000688

Dear Mr. Paris:

The NDEP has received and reviewed BRC's correspondence identified above and provides the following comments:

1. The NDEP concurs with the addition of wells to the monitoring program. The need to expand the monitoring network can be reviewed as additional data is collected. The NDEP requests that BRC examine existing well locations owned by Ampac in the vicinity of the Lower Ponds. In addition, please consider adding some or all of the wells located on the Tuscany property and owned by Tuscany.
2. Please provide a revised figure 1 which depicts all available well locations and indicate which wells are currently not sampled.
3. BRC proposes to eliminate certain analytical suites, the NDEP provides the following comments:
 - a. The NDEP concurs with the elimination of analyses for flashpoint, glycols and alcohols.
 - b. The NDEP does not concur with the elimination of analyses for SVOCs, Organophosphate Pesticides or Aldehydes.

Should you have any questions or concerns, please do not hesitate to contact me at (702) 486-2850x247.

Sincerely,

Brian A. Rakvica, P.E.
Supervisor, Special Projects Branch
Bureau of Corrective Actions
