

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Aluminum mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

N ↑

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Antimony mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Beryllium mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Cadmium mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Chromium mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Cobalt mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
 - Intermediate Sampling Interval
 - Deepest Sampling Interval
- Note: Surface interval indicator appears at the actual sample location

Approximate Scale
1 Inch = 265 Feet

N
↑

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Copper mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

N ↑

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Iron mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

N ↑

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Magnesium mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Manganese mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
 - Intermediate Sampling Interval
 - Deepest Sampling Interval
- Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Mercury mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Molybdenum mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

N

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Selenium mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

N

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Silver mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

N ↑

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Thallium mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Thorium mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Vanadium mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
 - Intermediate Sampling Interval
 - Deepest Sampling Interval
- Note: Surface interval indicator appears at the actual sample location

Approximate Scale
1 Inch = 265 Feet

N
↑

ENVIRON

Data from May 2001
Soil Sampling Event
Concentrations of Zinc mg/kg

LEGEND

- Surface (0-1 foot) Sampling Interval
- Intermediate Sampling Interval
- Deepest Sampling Interval

Note: Surface interval indicator appears at the actual sample location

Approximate Scale

1 Inch = 265 Feet

N ↑
